The distillery is also unique being only the third Pot Still distillery ever built in Sweden, and as you know third is a charm. The range in the distillery portfolio covers all from Eau-de-Vie's and Gin to Vodka and Rhum varieties.

But the heart and soul of the distillery is the production of Single Malt Whiskies, smooth as well as peated. The distillery also holds its own hotel, bar and restaurant, giving you the possibility of visiting and understanding the heritage of the products.

To create this product with the smoothest and sweetest character possible the organic wheat distillate is macerated with the best hand selected organic herbs, spices and fruits. Everything is distilled together in the unique small copper pot stills and the result hand bottled on site.

All spirits made in the distillery are bottled without any additives and without carbon- or chill filtering, which may cause cloudiness in the spirit, this should be considered as quality insurance for your benefit, as the veils are the flavour components in the spirit.
